Damenik's Home first opened its doors in 1997 at the Richmond District in San Francisco. The facility was established with the vision of providing an enriched quality of life for the elderly, to assist them in their daily activities without necessarily seeking skilled nursing services.

Today, Damenik's Home has three facilities serving not only the San Francisco County but the Peninsula area as well. We are strongly committed to encourage the value of independence, privacy, choice and safety of our residents.

Our goal is to provide our residents with the necessary support they need to continue to lead full, independent, rewarding lives in a warm and friendly home-like setting, while giving them individualized care and assistance.

We assist families in coping with the challenges in caring for their elderly loved ones. By placing them in our homes, these challenges are eventually lessened, if not eliminated. We assure them that their loved ones are living in a place they can truly call home.

At Damenik's Home, we are committed to help each and every one of our residents to:

- Feel secure and feel important
- Maintain their dignity
- Enjoy living in our home
